

## What hardware and software need to be secured?

### 1. ES&S Computers

- Owned & controlled by ES&S;
- Located in Omaha, Nebraska; regional offices; and with employees as portable devices.

### 2. County Elections Management Computer (EMS)

- Owned or leased by county;
- Provided, programmed, and maintained by ES&S.
- Located in county clerk's office.

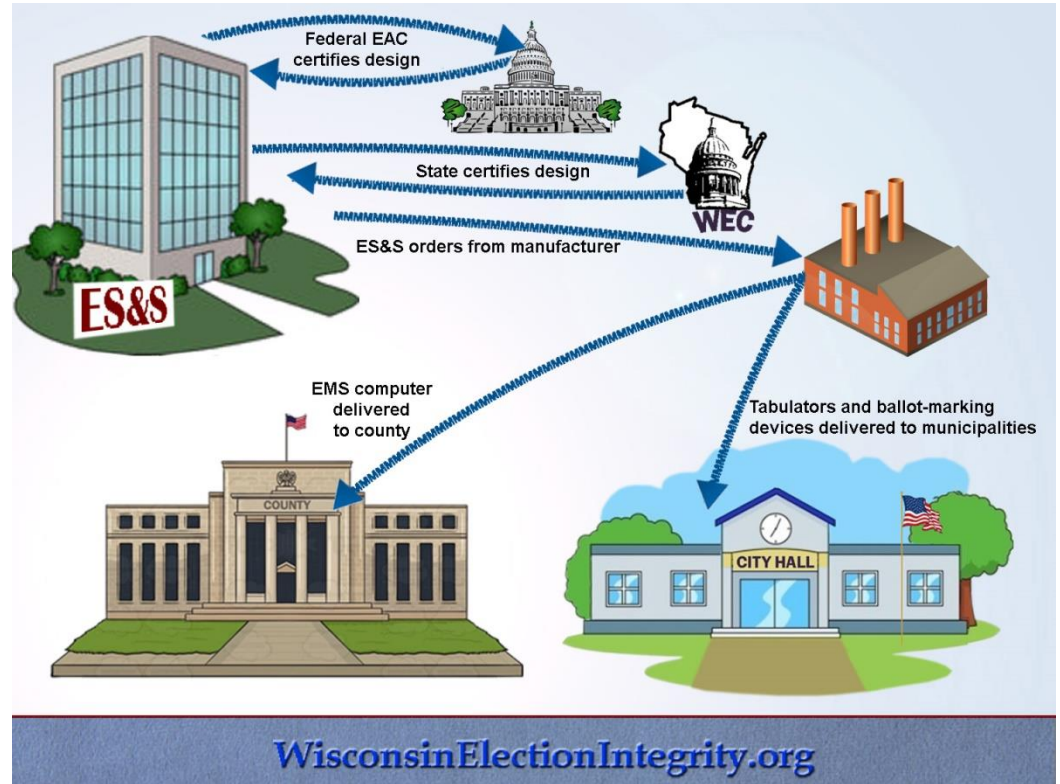

### 3. Polling-place equipment

- Tabulator (the 'voting machine' – DS200); and Ballot-marking device (BMD – ExpressVote)
- Owned, maintained, stored by municipalities;
- Programmed by county clerk, using an app provided by ES&S
- Located in polling places on Election Day; stored at various sites.

Also:

Portable USB drives to transfer data, software; whatever equipment the factory uses; Microsoft software for the operating system; and probably more.

## When a vote-tabulation system is new...

## For each election...
